Chemistry and Physics

## Enrichment Class Descriptions

**Anime Club:** Students interested in the Anime format of graphic books will be studying that art and learning to draw and/or write stories in that format. Students will share with each other and do peer tutoring, criticism, and teaching.

**AP Chemistry and Physics Review:** This course is offered to students currently enrolled in AP chemistry or physics. The purpose is to provide a collaborative environment in which students can practice solving the types of problems they are currently working on in chemistry or physics.

**Color me Happy:** If you love coloring intricate designs, fun pictures or amazing images – this is a great CATS class for you. There are literally hundreds of coloring pages to choose from that can be colored with ink, colored pencils, markers or crayons – you choose!

**Crocheting, Knitting and Sewing:** Work on sewing and crocheting projects

**Computerized Competitive Chess:** Students have a choice of choosing a partner to play

chess against each other on the Computers/Chromebooks or play against the Computers/Chromebook. The level of experience/knowledge can be selected for each student's capability in either category of beginner, novice, or advanced. We will pursue ways to compete with other schools in the area, forming a BHS chess competition team.

**Destination Imagination:** Students will be on a team that will work on solving a creative problem or situation. There are drama options, engineering options, filming options, etc. Teams may be eligible

**Distance Running:** Prepare for a lifetime of activity by making a regular habit of running. Focus will be on running no matter the season or weather (within reason). We will also address form, training techniques, training schedules, racing strategies, and a healthy diet. Students should be dressed and ready to run EVERY time the class meets, including the first day of CATS classes.

**FFA:** In order to be in the FFA CATS you must be enrolled in any of the agricultural classes and be an active FFA member. This time will be

used for multiple things including but not limited to: planning and implementing activities, judging practice, study time, etc.

**Mountain biking:** Enjoy mountain bike riding and get some exercise. **(a bike, helmet and signed permission slip is required for this class)**

**Track CATS:** Students who are out for track will be practicing for track meets. Must get coach approval to participate.

**Baseball Skills:** Students will be able to explore the game of baseball. They will learn new skills and improve on skills they already have. (Baseball Teams)

**Outdoor Basketball:** Students will be able to explore the game of basketball. They will learn new skills and improve on skills they already have. (Everyone Welcome)

**Board Games:** Great CATS class for students who like to play games like Clue, Jenga, Cranium, Mouse Trap and solve puzzles.

**Hispanic Leadership:** Para todos los que hablen español. Aprenderá como establecer un plan para progresar en sus estudios después de recibirse de la High School. También verán como poder encontrar becas para asistir a la universidad aunque no sean ciudadanos de este país. Cada otro Miércoles tendrán la oportunidad de terminar sus tareas escolares.

**Jazz Band:** Study and performance of Big Band Jazz. Learn the basics of Jazz style, sound, balance, and terminology. This is a performance class. The "Jazz Cats" will prepare a set of music to perform and compete in Jazz Fest at San Juan College.

**JROTC Scrapbooking:** This class is for students who would like to make a scrapbook. Students must provide supplies and photos.

### **Freestyle Music CATS**

Bring your acoustic or electric guitar or any other instrument of choice and join us for CATS. We will be watching YouTube videos to learn a variety of songs and genres. Students will come up with songs to learn. We will go from there!!

### **Advanced Placement Exam Prep**

Dedicate your CATS time to help prepare for AP exams and earn college credit. Devote your time to practice tests, exam strategies. We will utilize Khan Academy, and the College Board resources to help prepare you for upcoming AP exams. This is not content based, but will focus on overall strategies.

**JROTC Leadership:** This class is for officers and members of the JROTC classes.

**Lego's:** Do you enjoy building with Legos? Come relax during CATS and build something phenomenal.

**Music Theatre Audition Skills Class:** Students will work on the skills needed to complete a successful Musical Theatre audition for school or professional use. They will choose a monologue and a short song excerpt and prepare those materials for performance.

**Pay It Forward:** Come and have fun and get involved in the community by giving back and helping others. Activities will include fundraising, Create a gift, Helping families, Easter Egg Hunt, Santa is Coming to BHS, Giving laughter to people in need.

**Robotics:** Using LEGO MindStorms technology students will build a robot that performs a task of their choice. Students will use their creative abilities to overcome building challenges and learn the programming skills needed to create a robot. Lots of fun and group camaraderie.

**Softball:** For students interested in developing their softball skills. We will be working on fielding, batting, and conditioning.

**Student Council:** Students will learn the proper way to conduct a meeting; they will participate in committees and understand the roles of leadership. Students will take an active role in planning study body activities. They may also participate at the district and state level student council meetings. Students must have Mrs. Snell's approval to be in this class.

**Soccer:** Play a great team sport with your buddies and learn the skills of playing soccer

### **Writing/Filming and Directing**

Be a part of writing, directing and filming to to compete for school funding for our school. Work with teachers, principals, and peers to produce a quality video for the Follett Challenge. This is a valuable outreach activity and great way to support your community.

### **Nail Art**

Learn the art of nail decorating: There are two teachers in two classrooms offering this class. up to 20 students may sign up for each class supplies will be shared between the teachers.
